À« Les patriotes du pouvoir d'Etat et de l'opposition doivent se parler ». 7121. A: I think it means 'they have to talk' literally. As in they have to talk to each other to decide what the next step is. On the other hand, if they are "betraying" other persons then I would use translating the same way. "La Police est Trahie" or "La Police a été Trahie" Q: Java Swing Drag and Drop I want to make drag and drop functionality using javax.swing. This is my code public void mouseDragged(MouseEvent e) { Component c = e.getComponent(); int x = e.getX() - c.getX(); int y = e.getY() - c.getY(); c.setLocation(x, y); } public void mouseReleased(MouseEvent e) { Component c = e.getComponent(); int x = c.getX() - e.getX(); int y = c.getY() - e.getY(); c.setLocation(x, y); } But it is not working A: You should use MouseMotionListener as in following import java.awt.Color; import java.awt.Dimension; import java.awt.Graphics; import java.awt.event.MouseEvent; import java.awt.event.MouseMotionListener; import javax.swing.JFrame; import javax.swing.JPanel; import javax.swing.SwingUtilities; public class MouseGraph extends JPanel implements MouseMotionListener { private static final long serialVersionUID = 1L; private int x, y; public MouseGraph() { setBackground(Color.RED); this.addMouseMotionListener(this); } @Override public void mouseMoved(MouseEvent e
